

HALFWAY TO HALLOWEEN

ARE YOU A HAUNTAHOLIC?

You know you're a Hauntaholic when:

1. Your house contains nothing but Halloween Props
2. You have names for the skeletons in your closet
3. Your dog ignores masked intruders breaking into your house
4. You can't watch a horror movie without writing down ideas
5. You find yourself thinking that one corpse is more attractive than another
6. You have more than 10 sound effect CD's
7. You spend more on Halloween than your spouse's birthday
8. You get more excited over a fog machine than new clothes
9. You shop for Halloween props all year round
10. Your electric bill is higher in October than December

WHEN TO SHOP FOR HALLOWEEN

If you are anything like me, Halloween is always on my mind. I am always looking to find that one of a kind item to add to my already huge supply of Halloween Props, but when do you start shopping for Halloween?

My suggestion would be to first, shop for Halloween decorations & props immediately after October 31st, because you will be able to find great deals and you will be able to stock up on lots of items. But if you can't wait until after the witching hour to shop, start looking now for your props because in most places, suppliers will sell out quickly and your item will be out of stock. Even though the economic times are rough right now, Halloween is one of the fastest growing industries in the world for sales, even higher than Christmas.

So, shop early to get the props & decorations you want that are in stock now & also shop after Halloween to pick up your deadly deals for next year!
